PROFESSIONAL SUMMARY

Results-driven Email Developer with 3+ years of experience in Responsive Email Design, HTML Email Development, Cross-client Compatibility, AMP for Email, and Landing Page Development. Experienced in developing 100+ responsive email templates for international clients using HTML5, CSS3, JavaScript, Bootstrap, Adobe Campaign Classic (ACC), and MAPP CMS. Strong expertise in converting Figma and PSD designs into pixel-perfect templates, resolving Outlook rendering issues, and ensuring consistent rendering across 30+ email clients through Email on Acid.

Core Competencies: AMP Email Development · Responsive Email Design · Cross-Client Compatibility Testing · Adobe Campaign Classic (ACC) · HTML5/CSS3 Email Coding · Outlook/MSO Rendering Fixes · Figma-to-Code Conversion · Email QA (Email on Acid, Litmus)

TECHNICAL SKILLS

Email Development: HTML5, CSS3, Responsive Email Design, Cross-client Compatibility, Modular Email Architecture, Dark Mode Handling, AMP Email, AMP Script, Dynamic Content, VML, Conditional Comments

Frontend: Bootstrap, JavaScript, HTML5, CSS3

AMP Email Features: AMP Forms, AMP Carousel, AMP Accordion, AMP List, AMP State, AMP Lightbox, Dynamic AMP Components

Email Platforms & Tools: Adobe Campaign Classic (ACC), MAPP CMS, Email on Acid, Litmus

Design & Prototyping: Figma, Adobe Photoshop, Adobe Illustrator, Adobe XD, Adobe InDesign

Version Control & Dev Tools: Git, GitHub, VS Code, Dreamweaver, Notepad++, WinSCP, FileZilla, JIRA

PROFESSIONAL EXPERIENCE

Email Developer / Web Developer

Kenscio Digital Marketing Pvt. Ltd., Domlur, Bengaluru | March 2023 – Present

- Designed and developed 100+ responsive email templates and landing pages for international clients using HTML5, CSS3, and Bootstrap, ensuring consistent rendering across Gmail, Outlook, Apple Mail, Yahoo, and all major mobile clients.
- Implemented advanced AMP Email features** — AMP Forms, Carousels, Accordions, AMP List, AMP State, Lightboxes, and Dynamic Content — delivering interactive, real-time email experiences for clients.
- Converted Figma and PSD designs into clean, pixel-perfect, production-ready email templates with zero rendering issues across 30+ email clients and devices.
- Built modular and reusable email component libraries and frameworks, reducing template development time and ensuring consistency across campaigns.
- Developed and managed CMS blocks, reusable email structures, and campaign frameworks** using MAPP CMS and Adobe Campaign Classic (ACC).
- Performed end-to-end QA and cross-client testing using Email on Acid, identifying and resolving rendering issues before deployment.
- Resolved complex Outlook-specific bugs including VML background images, border-radius fallbacks using v:roundrect, dark mode mso-color-alt inversions, and MSO conditional comment handling.
- Optimized email code for deliverability, rendering accuracy, load performance, and responsiveness across desktop, tablet, and mobile viewports.

- Collaborated with marketing, design, and strategy teams to understand campaign requirements and deliver high-quality email solutions on tight deadlines.
- Troubleshoot and resolved cross-client rendering, responsiveness, and client-specific email issues efficiently and independently.

KEY ACHIEVEMENTS

- **AMP Email expertise:** One of the few Email Developers with hands-on AMP Email experience (Forms, Carousels, Accordions, Dynamic Content) — a rare, high-demand differentiator in the email development industry.
- Resolved advanced Outlook rendering bugs (VML, dark mode, MSO conditionals) that most email developers cannot handle — reducing QA cycles and production rework.
- Independently designed and deployed a full-stack web application from scratch as an MCA Final Year Project — demonstrating strong self-learning capability beyond core email skills.

PERSONAL PROJECT

Smart Food Expiry Management System | MCA Final Year Project

Independently designed, built, and deployed a full-stack web application using Python, Flask, and Machine Learning — covering the complete development lifecycle from database design to cloud deployment. Demonstrates initiative, self-learning, and ability to work beyond core email development skills.

Tech Stack: Python · Flask · PostgreSQL · Scikit-learn · Bootstrap 5 · Chart.js · Brevo Email API · Render · GitHub

EDUCATION

Master of Computer Applications (MCA) — Completed (Result Awaited)

University of Madras, Institute of Distance Education

Bachelor of Computer Applications (BCA)

Thiruvalluvar University | 79.18%

Higher Secondary — Computer Maths

Venkateshwara Higher Secondary School | 55%
